NETZERO FIRE

NZ40F NETZERO PENINSULA FIREBOX AA-11-04761

FOR NZ40B FLA AUTOMATIC ETHANOL BURNER (not included)

PENINSULA FIREBOX

A unique showstopper for contemporary living rooms or any other open concept interior. The peninsula firebox breaks up the interior, creating two separate spaces with one fire feature.

PROTECTIVE DEFLECTOR

With the attached deflector you can cover the fire feature housing with combustible materials.

GLASS BARRIER

The dedicated tempered glass panel covers and stabilizes the flame.

CONTROL OPTIONS

Control the fire with the included remote, app on your smartphone or home automation system.

ZERO CLEARANCE

NetZero Fire fireboxes are designed to provide the required clearances to combustible framing for complete design flexibility.

INTEGRATED CONTROL PANEL

This NetZero burner has an intuitive control panel with an LCD screen and inlet for automatic refilling.

BEST BUILD QUALITY

NetZero burners and fireboxes have passed extensive tests carried out by the leading certification institutes. They're manufactured according to UL standards and are O-TL certified – meeting the most demanding safety and quality requirements.

AUTOMATIC BURNER

The automatic burner with patented BEV Technology® is the most advanced product in the industry, ensuring the cleanest burning process without any smoke, smell or ash. The flame is produced by combusting ethanol vapors and has no direct contact with the liquid fuel.

AUTOMATIC REFILLING SYSTEM

The automatic pump communicates with the device, delivering the necessary amount of fuel. There is no risk of overfilling the tank or spillage.
